PROFILE

A front-end engineer strives to create innovative and effective user interfaces, focusing on user experience and performance optimization. I master a variety of languages and frameworks such as HTML, CSS, JavaScript, React and develop high-quality web applications. I have extensive experience in building responsive user interfaces that work smoothly on various devices and screens. I am interested in improving the performance of websites and applications, and I am constantly working on developing my technical skills.

COURSES

Front-End Developer

Jan 2023 – Oct 2023

Eng/ Abdulrahman Alaa

"I would like to express my sincere thanks for this comprehensive and useful course. I have learned a lot of new skills that will help me develop my career as a Frontend Developer."

Soft Skills

Jan 2024 – Mar 2024

Self-Learning

"The Softskills course was an investment in myself. I learned a lot of valuable skills that will help me succeed in my professional and personal life. Thank you to the team for this wonderful program."

ICDL

Jan 2023 – May 2023

Self-Learning

"Thanks to the ICDL course, I have become more confident in using the computer and am able to complete tasks more effectively. I have learned how to use Office programs efficiently, how to search for information on the Internet, and how to maintain data security. I thank the course organizers for their efforts in providing us with this valuable knowledge." "
